ENGINEERING - CONSTRUCTION

PORTFOLIO

# About JIDAR

Jidar is a leading architecture development house, located in New Cairo.

where architects, engineers, builders, and industry experts meet together to have unique interior design solutions and integrated finishing works.

# Our Story

Jidar Engineering Construction was established in 2017 by our Chairman **Eng. Wael Abd El-Raziq Mohammed.**

A highly experienced architect in the construction industry. Our unlimited trade license for Egypt has enabled us to have the upper hand in the delivery of projects and buildings of different heights.

We have been leading solutions in the field of high-end corporate residential and commercial interiors and finishing works in Egypt. Our presence in the market has been carved by delivering unmatched results that are one-step ahead of other deliveries.

# Our Vision

Providing sustainable development and superior services to both nationals and residents.

# Our Mission

Ensuring the ultimate standards of quality and accuracy in our integrated services to help in building the future of Egypt

# Our Services

## PRE-DESIGN AND DESIGN

We offer extensive site analysis, programming, construction cost analysis, and value engineering to investigate a set of conditions that can establish the framework of the whole project.

# Our Services

## **INTERIOR DESIGN**

We work on achieving a safer and more pleasing environment by determining space requirements, coordinating decorative elements, and producing design plans for construction and installation.

# Commercial

# Administrative

## Commercial

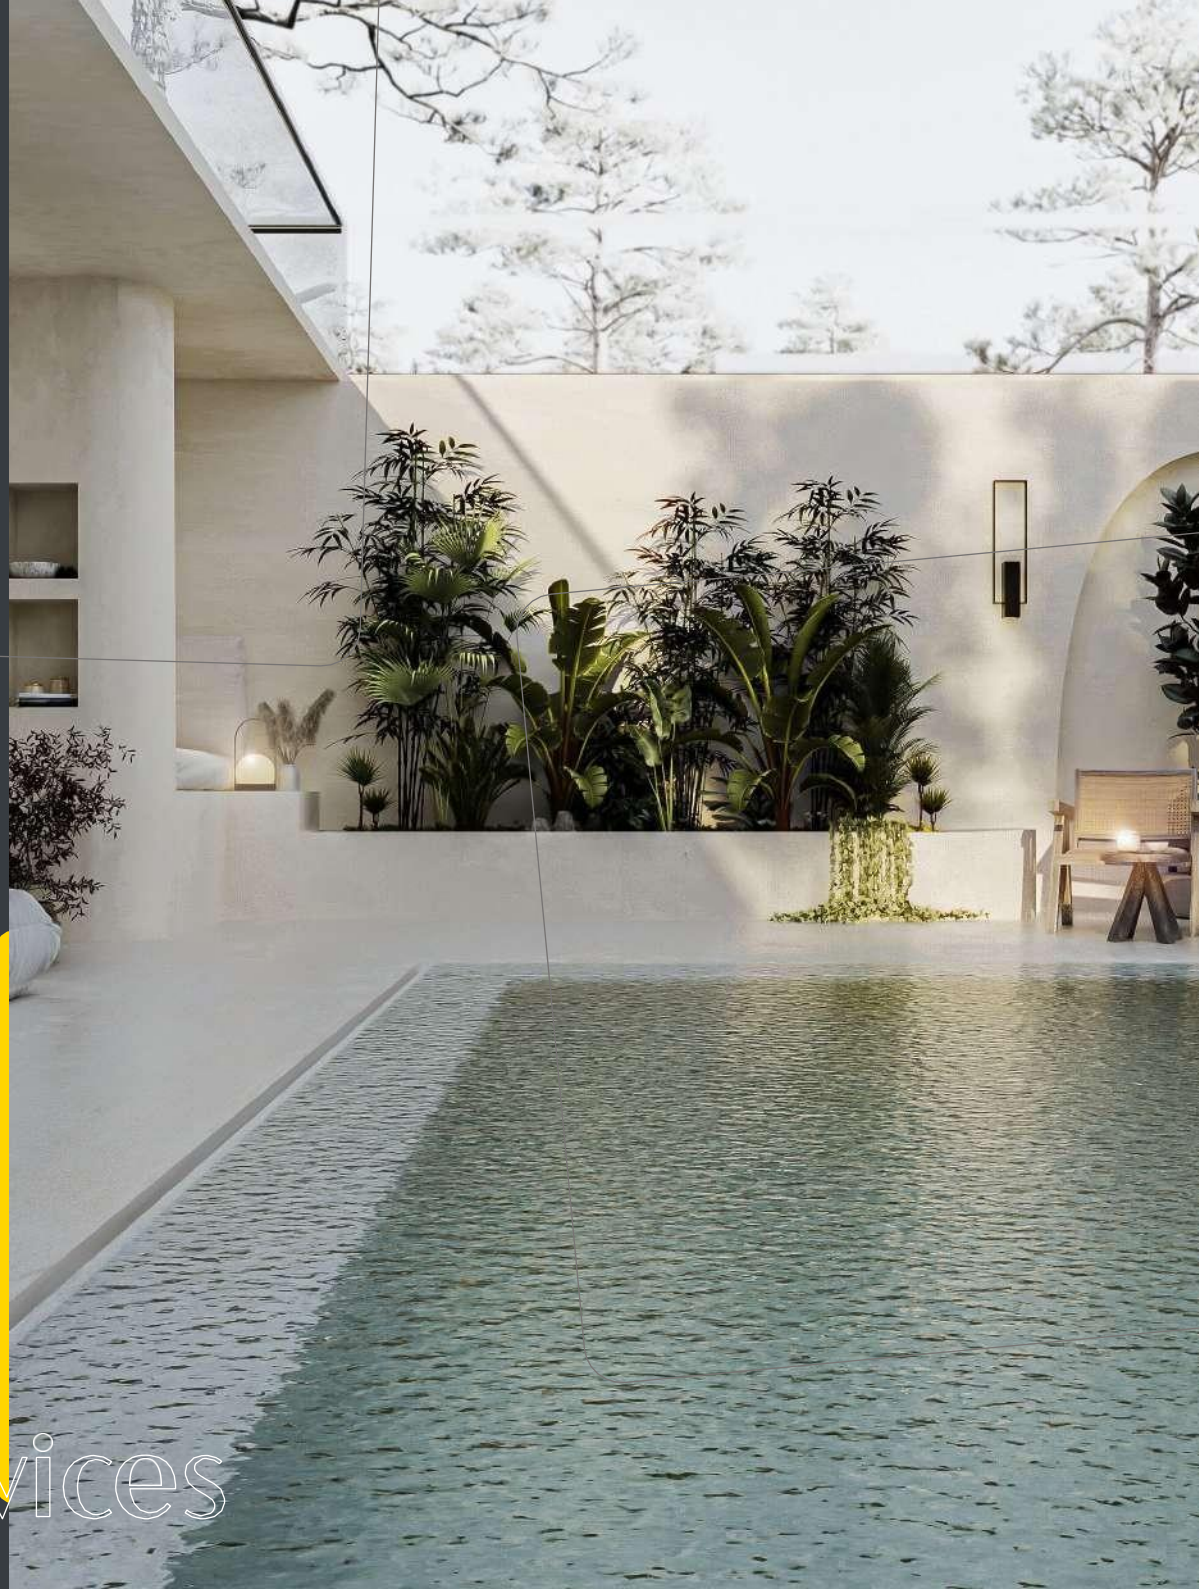

## Administrative

## LANDSCAPE DESIGN

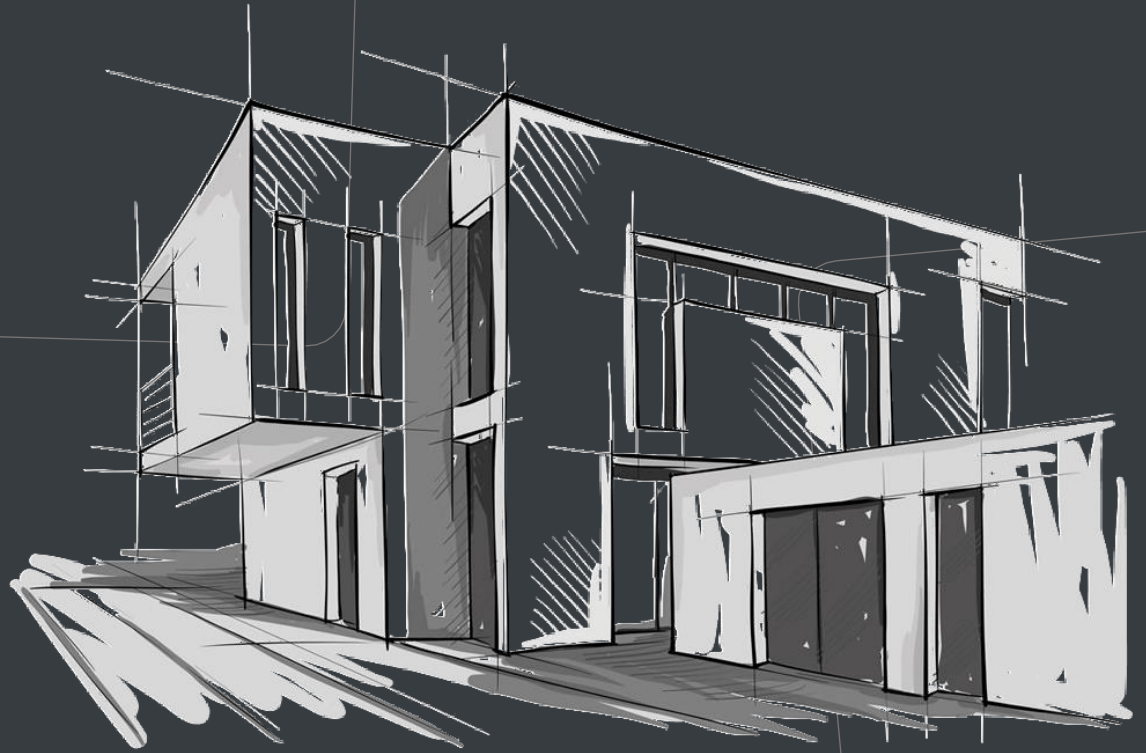

We concentrate on assisting our customers and will always do everything possible to ensure your pleasure. Our highly skilled team of landscape professionals has been caring for and building incredible figures since we started.

Our  
Services

## ARCHITECTURE

The keystone of interdisciplinary activities, we have developed leading architecture expertise in Egypt as we can design and construct different types of structures and buildings with extraordinary results.

Our  
Services

## SUPERVISION

Our  
Services

Professional supervision of construction works is a precondition for the successful implementation of a project in terms of time, quality, and cost.

## CONTRACTING

Have plans and ready to build? We prepare detailed, itemized bids, help you to compare apples-to-apples, and value engineer if need be. We understand the value of design and bring this to every construction project.

We don't cut corners, provide transparent pricing and ensure that your job is built on time and on budget.

## PROJECT MANAGEMENT :

Managing a Construction project effectively and efficiently is crucial for any project to meet a tight schedule and delivery deadline.

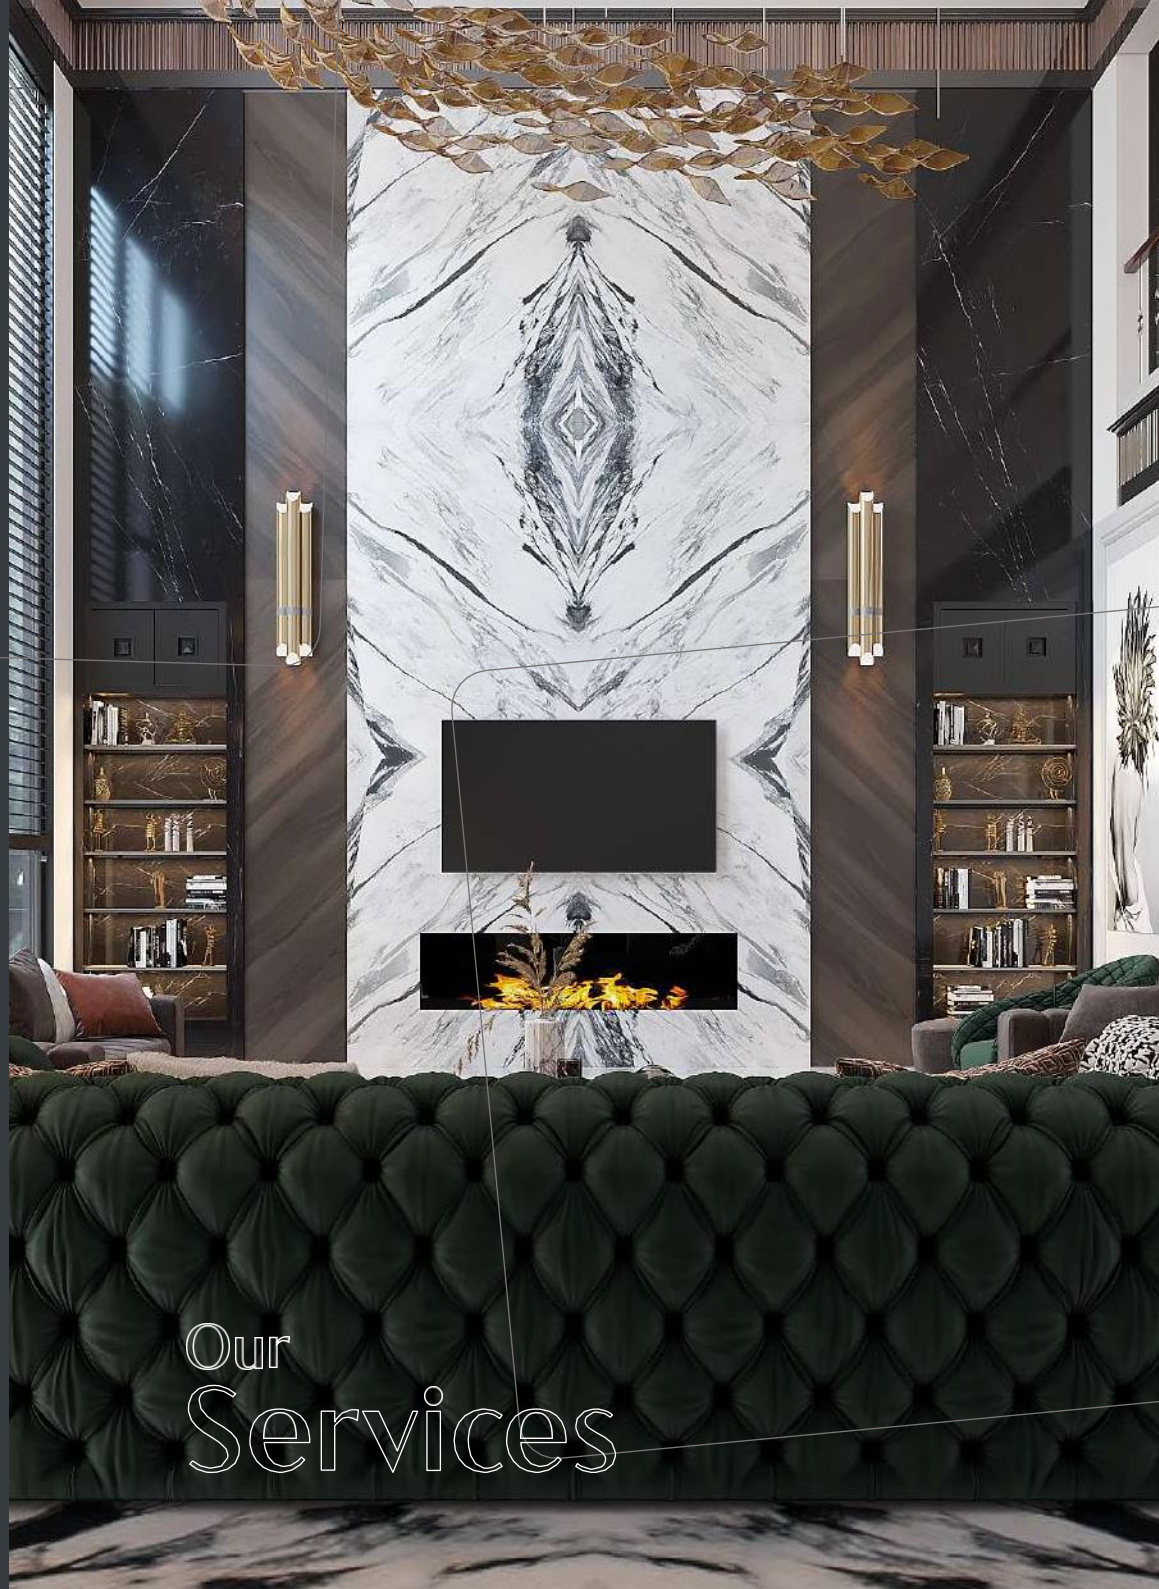

JIDAR manages the entire project to improve the efficiency of your business, streamline workflow and enhance productivity from back office to construction site.

Our  
Services

## FINISHING WORKS

We ensure the implementation of integrated operations relating to the interior and exterior finishing of structures to enhance their aesthetic qualities. The main types of finishing works provided by JIDAR are painting, flooring, glazing, and wooden & metal finishes.

Our  
Services

## Our Team

A Qualified and experienced team of Engineers and Architects are carrying the responsibility of delivering superior services and engineering consultancy to our clients. A team that is moving forward together to drive more and more accomplishments in Egypt and neighboring countries, then success always takes care of it self.
